

# Hi!

## Nice to meet you

**My name is Maya Nudler, A Branding & Product Designer with a Bachelor's degree in Visual Communication, specializing in UX/UI.** For the past 4 years, I have been leading diverse projects from concept to execution. Ranging from strategic branding, digital, and print design, to spatial design and interface creation. Driven by the belief that design tells a story, I bring strong organizational and collaboration skills to turn raw ideas into complete, precise, and dynamic brand experiences.

### Graphic & Spatial Designer | Freelance

Led branding, digital, and spatial design projects for clients in different industries. Delivered full project cycles including concept, design, client communication, and execution. Communicated with suppliers, adjusted design solutions to match budget limits, and prepared quantity and material lists to support project execution.

#### Key projects:

- **Jerusalem Design Week | 2021**  
Branding, video, and marketing materials.
- **Graduate Exhibition | 2024**  
Branding, photography, marketing, spatial design, and video.
- **KDM Factory | 2025-2026**  
Designed comprehensive visual content for social media platforms and digital marketing channels.

### Professional Experience

- **Pha Studio | 2022 – 2023**  
Collaborated with senior designers on multi-disciplinary branding and spatial projects. Actively involved from concept to completion, translating client briefs into creative concepts through to final execution.
- **Teaching Assistant | College of Management | 2022 – 2024**  
Mentored students across design courses (Image Making, Infographics, and Final Projects). Supported practical and technical skills, concept development, and execution. Coordinated between faculty and students to ensure smooth project workflows
- **Blanco Advertising Agency | 2025**  
Designed campaigns for print and digital media. Worked closely with marketing and creative teams to deliver branding and advertising solutions.

### Volunteer Project

#### Max Company – UX/UI Website for Lone Soldiers

Designed a platform bridging the gap in connecting lone soldiers with host families. Developed as a collaborative project, leading comprehensive research, UX/UI design, marketing, and branding.
